

# PEOPLE with TYPE 1 DIABETES NEEDED

## HYPOGLYCAEMIA DETECTION STUDY

The Diabetes Centre at the Prince of Wales Hospital

&

The University of Technology, Sydney, in conjunction with

AiMedics Pty Ltd

are taking part in a clinical trial of a new non-invasive hypoglycaemia monitor  
(HypoMon®)

- The study will help us understand Hypoglycaemia (low blood glucose condition).
- Two visits, each for two hours, are required.
- All expenses will be reimbursed.

**Do you have Type 1 diabetes?  
Are you over the age of 17?**
